Nominees announced: 2017/2018 NSTF-South32 Awards

Recognising excellence and outstanding contributions to science, engineering and technology and innovation in South Africa

The [National Science and Technology Forum \(NSTF\)](#) is pleased to announce the group of nominees contending for the prestigious [NSTF-South32 Awards](#). This is the 20th year of the annual NSTF-South32 Awards.

The 20th year celebration: The [NSTF Awards](#) were established in 1998 as a collaborative effort to recognise outstanding contributions to science, engineering and technology (SET) and innovation by SET-related professionals and organisations in South Africa. This includes experienced scientists, engineers, innovators, science communicators, engineering capacity builders, and organisational managers/leaders, as well as data and research managers.

Our partner: South32 is a metals and mining company that de-merged from BHP Billiton in 2016. It took over the co-branding [sponsorship](#) agreement for the annual NSTF Awards.

The 'Science Oscars': The [NSTF-South32 Awards](#) are referred to as the 'Science Oscars' of South Africa. They are the largest, most comprehensive, and most sought-after national awards of their kind in the country. They were also the first science awards in South Africa.

NSTF-South32 Awards' theme: The theme for the 2017/2018 NSTF-South32 Awards is **Sustainable Energy for All**. This is in recognition of the International decade of Sustainable Energy (2014-2024) as declared by United Nations. The 20th annual [Awards Gala Dinner](#) will celebrate this theme on 28 June 2018.

What's new this year?

New features were introduced for some categories and the criteria as follows:

- **Innovation awards:** The [Innovation Category](#) has greater emphasis on 'innovation'. The Research for Innovation Awards is now the 'Awards for Innovations and their research and/or development'.
- **Research categories:** All research categories are now open to anyone thoroughly experienced in research, regardless of whether they have a PhD. We have also strengthened the focus on further development of outputs towards innovation.
- **Special Annual Theme Award:** This year the NSTF's [special annual theme](#) award is for a contribution to SET and innovation towards [Sustainable Energy for All](#) in South Africa.

The NSTF's vision

A transformed country where SET and innovation contribute to a high quality of life for all who live in South Africa, where the profile of SET professionals is representative of the nation's diverse population and where the education system is effective, particularly in terms of performance in SET subjects and the promotion of innovation.

Realising the vision: The NSTF-South32 Awards is the NSTF's flagship event and one among [other strategic activities](#) through which the NSTF realises this [vision](#). Partnerships for specific awards (such as that with the Water Research Commission, GreenMatter, and Eskom) recognise contributions that have the potential to make a positive impact on South Africa, and on the world.

2017/2018 NSTF-South32 Awards nominees

Join the NSTF [membership](#) and pioneering [partners/sponsors](#) in applauding the [2017/2018 NSTF-South32 Awards nominees](#). These comprise individuals, teams and organisations, as applicable, who have made an **outstanding contribution to SET and innovation in South Africa** under the [categories](#) below:

- *An asterisk (*) at the end of the citation of the nominee indicates that a nominee has been nominated under more than one category*
- *Listed alphabetical according to surname of nominee or name of team/organisation under each category*

Lifetime Award

(by an individual over a lifetime – 15 years or more)

- **Arbuthnot, Prof Patrick** – Director: Wits/SA Medical Research Council (MRC) Antiviral Gene Therapy Research Unit, University of the Witwatersrand (Wits)
- **Botes, Mr Willem** – Research Lead at the Department of Science and Technology (DST)/Grain SA Wheat Breeding Platform; Senior Lecturer: Genetics Plant Breeding Laboratory, Genetics Department (Dept), Faculty of AgriSciences, Stellenbosch University (SU) *and also in the Corporate Innovation category*
- **Bradley, Prof John** – Honorary Professor, Dept of Education, Wits
- **Ebenso, Prof Eno** – Executive Dean, Faculty of Natural & Agricultural Sciences, North West University (NWU) *and also in the Researcher category*
- **Harvey, Prof Brian** – Professor, Division of Pharmacology, Programme Leader: Centre of Excellence for Pharmaceutical Sciences, School of Pharmacy, NWU; Programme Leader: MRC Unit on Risk and Resilience, University of Cape Town (UCT)
- **Maaza, Prof Malik** – Senior Scientist: National Research Foundation (NRF) Nanosciences LABS and UNESCO Africa Chair, College of Graduate Studies, University of South Africa (UNISA) *and also in the NSTF-GreenMatter category and the Special Annual Theme Award*
- **Makinde, Prof Oluwole Daniel** – Professor of Applied Mathematics and Computations, Faculty of Military Science, SU *and also in the Engineering Research Capacity Development and the Corporate Innovation categories*
- **Owen-Smith, Prof Norman** – Emeritus Research Professor, School of Animal, Plant and Environmental Sciences, Wits
- **Pityana, Prof Sisa** – Principal Researcher, Laser Centre, Council for Scientific and Industrial Research (CSIR) *and also in the Engineering Research Capacity Development category*
- **Prodinger, Prof Helmut** – Dept of Mathematical Sciences, SU
- **Rubidge, Prof Bruce** – Director: DST-NRF Centre of Excellence in Palaeosciences, Wits
- **Sadiku, Prof Emmanuel Rotimi** – Research Professor, Tshwane University of Technology (TUT) *and also in the Corporate Innovation category*
- **Sesi, Mr Sivuyile** – online writer, Internative Digital@756 Writing *and also under the Science Communication category*
- **Smuts, Prof Cornelius** – Director, Centre of Excellence for Nutrition, Faculty of Health Sciences, NWU
- **Stacey, Prof TR (Dick)** – Professor Emeritus, School of Mining, Wits *and also in the Engineering Research Capacity Development category*

**Special Annual Theme Award:
Towards Sustainable Energy for
All**

**(awarded according to criteria in
any of the other categories but
which meet this objective)**

For 2018, the award is made in recognition of the 'International Decade of Sustainable Energy for All' as declared by the United Nations

- **Diale, Prof Mmantsae** – Associate Professor, Department (Dept) of Physics, University of Pretoria (UP) *and also in the Engineering Research Capacity Development and for the Emerging Researcher category*
- **Maaza, Prof Malik** – Senior Scientist: National Research Foundation (NRF) Nanosciences LABS and UNESCO Africa Chair, College of Graduate Studies, University of South Africa (UNISA) *and also in the NSTF-GreenMatter and the Lifetime categories*
- **Marx, Prof Sanette** – Associate Professor in the School of Chemical and Minerals Engineering; NRF Research Chair in Biofuels and Other Clean Alternative Fuels; Centre of Excellence in Carbon-based Fuels, North-West University (NWU) *and also in the Engineering Research Capacity Development category*
- **Matambo, Prof Tonderayi** – Associate Professor and Biotechnology Group Leader, Material and Process Synthesis (MAPS), UNISA
- **Mpofu, Prof Khumbulani** – Professor, Gibela Research Chair in Manufacturing and Skills Development, Tshwane University of Technology *and also in the Emerging Researcher, and the Engineering Research Capacity Development and the Science Communication categories*
- **NWU Solar Car Team** – Manager: Professor Albert Helberg, NWU *and also in the Science Communication and the Corporate Innovation categories*
- **Strategic Environment Assessment Team, Council for Scientific and Industrial Research** – Research Group Leader: Mr Paul Lochner *and also in the NSTF-GreenMatter category*
- **Van Der Merwe, Mr Hendrik** – Operations Manager, Vaal University of Technology, Southern Gauteng Science and Technology Park *and also in the Engineering Research Capacity Development and the Emerging Researcher categories*
- **Winkler, Prof Harald** – Professor and Director of Energy Research Centre, University of Cape Town *and also in the NSTF-GreenMatter category*
- **Xia, Prof Xiaohua** – Professor in the Department of Electrical, Electronic and Computer Engineering, UP *and also in the Researcher and the Lifetime categories*

Adjudication: The accreditation and selection process for the NSTF-South32 Awards are made by an adjudication panel of independent judges. They represent six different sectors of the NSTF membership and within which the NSTF operates. This adjudication panel, in conjunction with the Award partners, review the nominations to select the finalists and winners each year. A panel of experts, appointed by the NSTF Executive Committee, also

assists the panel by reviewing and validating the final selections.

Youth programmes: One of the features that make these awards unique is that youth outreach is an integral part of the awards. Two NSTF [Youth](#) outreach programmes are run annually in conjunction with the NSTF Awards.

- The NSTF [Brilliants Programme](#) identifies and celebrates the top achievers in physical science and mathematics studying in science, engineering and medicine from the previous year's matric examinations. It exposes these young people to the SET community. Eighteen students (a man and a woman from each province) are recognised as the future leaders and innovators of our nation.
- Success is not about where you are, but who you have elevated in the process. The NSTF [Share 'n Dare Programme](#) is an output of the NSTF-South32 Awards that profiles [award winners](#) as youth role models. Award winners share their experience in the SET field at science centres and universities across the country. They encourage the youth to take up [careers in SET](#). Thousands of South Africans are also reached through community and campus radio station awareness talks.

Announcing Awards finalists and winners

The announcement of the NSTF Awards [finalists](#) will be circulated through the NSTF e-newsletter during **May 2018**. The announcement of the [winners](#) will take place at the prestigious NSTF Awards [gala dinner](#) taking place on **28 June 2018** in Gauteng.

Attending the 'Science Oscars'

The patron of the NSTF Awards, the Minister of Science and Technology, presides over the programme. The new Minister, Ms Mmamoloko Kubayi-Ngubane confirmed her attendance to participate in the proceedings this year. The event is a glamorous affair attended by the cream of the crop of the SET community. It is the largest event of its kind and is open to the public. Over 600 guests attend the event. The SET community is invited to book tables for their organisations to celebrate the achievements of the nominees and finalists. Contact Ms Bokgabo Tlhaku at enquiries@nstf.co.za or call +27 (0)12 841-3349/3987.

Media partners and advertising campaign

There are two media partners of the NSTF Awards to ensure national public recognition to the winners, as well as to facilitate the communication of science to the broader public. They are:

- **Business Report (since 2010)**, distributed through The Star, Pretoria News, Cape Times, and The Mercury
- **Mail & Guardian (since 2011)**

Both these newspapers carry supplements about the winners the day after the Awards gala dinner (Friday, 29 June 2018). Unique advertising opportunities are available for your brand. Contact Ms Wilna Eksteen at enquiries@nstf.co.za or call +27 (0)12 841-3987/3349.

Partnerships and sponsorships

Organisations are invited to join hands with the NSTF to widen the reach and impact of the NSTF-South32 Awards and youth programmes. Partnerships are available on new and existing award categories and outreach programmes. Contact Ms Wilna Eksteen at enquiries@nstf.co.za or call +27 (0)12 841-3987/3349.

Please forward this e-mail to your colleagues, business contacts and all interested persons!

Send us your news

The NSTF invites all our members, as well as all SET and innovation role players, to send us information on meetings, conferences and activities of interest to the broader S&T community. Please send us your news by the 20th of the month, for distribution at the beginning of the following month, to enquiries@nstf.co.za

Feedback

If you have any comments or suggestions on how we can improve this newsletter, please e-mail the NSTF Secretariat at enquiries@nstf.co.za

About the NSTF

The National Science and Technology Forum (NSTF), established in 1995, is a broadly-representative stakeholder body for all SET and innovation organisations in South Africa, which seeks to influence policy formulation and delivery.

The NSTF-South32 Awards are unique in SA, recognising the outstanding contributions of individuals and groups to SET and innovation.

The science bursaries page provides information on bursaries and bursary providers for science, engineering and related studies.
