

SOUTH AFRICAN
ACADEMY OF ENGINEERING

SUSTAINABLE DEVELOPMENT OF
**AGRICULTURAL AND
FORESTRY SYSTEMS**

MESSAGES

FROM THE 2018 CAETS
CONVOCATION

presented by Felix Reinders

**29 October 2019 | 17h00 for 17h30 | Engineering Sciences
building, University of the Free State**

Felix Reinders, FSAAE will speak about the "Sustainable development of agricultural and forestry systems". This topic was addressed at the International Conference of the Council of Academies of Engineering (CAETS) that was held in Montevideo, Uruguay in September 2018. At the Conference international experts focused on the sustainable development of agricultural and forestry systems and presented their views on the following topics:

WATER-ENERGY-FOOD NEXUS

**SOIL & WATER SUSTAINABILITY UNDER
AGRICULTURAL & PLANTATIONS FORESTRY USE**

AGRICULTURE & SUSTAINABILITY

Presented with the support of Stellenbosch University and NSTF/proSET:

Felix Reinders PrEng FSAAE was a member of the SAAE delegation to the CAETS meetings in Montevideo, Uruguay, in September 2018. He is the President of the International Commission on Irrigation & Drainage (ICID) and manages the Irrigation & Drainage Engineering Division at the Agricultural Research Council's Institute for Agricultural Engineering in Pretoria. He is a Past President of the SA Institute of Agricultural Engineers (SAIAE) and of the SA Irrigation Institute (SABI).
